FINANCIAL AND COMMERCIAL.

THURSDAY, April 14-6 P. M. There was a better feeling in the stock market today. The demand was more active, and an improvement in prices was realized. At the first board, Morris Canal went up # per cent; Cumberland 1; Parker Vein, 1½; Phœnix, ½; Norwich and Worcester, ½; Erie Railroad, ½; Harlam, ½; New Creek, ½; Hudson Railroad, ½; Continental Bank, ½. Morris, Canton, Nicara ua, Cumberland, in fact, all the leading fancies, were operated in to some extent, and judging from present appearances, the prospect is brightning; but we are not disposed to put much confidence in these upward movements. They are generally so short lived, and upon such a shaky, slim foundation, that we have no guaranty from day to day that they can be made available. They are created by the brokers, who are unfortunately large holders of the fancies, who seek to reduce their supplies by attracting outsiders. The ruse does not work; all the speculators in the market are in the street, and by turning over the fancies among themselves, they may share from time to time an improvement. It cannot, however, continue, for the bears take advantage of every endeavor to put out contracts, and they will soon fill up those who at present may not be surfeited. The receipts at the office of the Assistant Treasurer

of this port to-day, amounted to \$88,804 51; payments, \$75,350 58-balance, \$6,953,709 01. The new Director of the Mint, Thomas M. Petit,

has entered on the duties of his office. The office of Treasurer is still held by Mr. Dale, who is anxiously awaiting some one to take his place.

At the second board the market was decidedly more buoyant, and the transactions to a pretty fair amount. Cumberland advanced h per cent; Florence and Keyport, 1; Nicaragua Transit, 1; Parker Vein, 1; Erie Railroad, 1; Hudson Railroad, 1; Norwich and Worcester, 1; Morris Canal, 1. A few shares of Crystal Palace were sold to-day at \$150-the first sale we have noticed for a long time.

Mr. Simeon Draper holds his weekly sale of stocks at public auction to-morrow, (Friday,) at the Merchants' Exchange. The list of stocks to be offered comprises a variety of good stock and bond securities, including 1,000 shares North Carolina Copper Company, and 100 bonds of the city of Cincinnati.

The steamer Alps, at Boston, from Liverpool. brings four days later news from all parts of Europe. A slight advance in quotations for cotton had been realized, with a good demand. In breadstuffs there had been no change, either in prices or extent of transactions. In the manufacturing districts considerable activity prevailed. The Baltimore and Ohio Railroad Company have

declared a semi-annual dividend of three per cent on the main stem and five per cent on the Washington branch.

The Fulton Bank of this city has declared a semi-

annual dividend of five per cent. A resolution was offered in the Massachusetts House of Representatives yesterday, instructing the bank committee to consider the expediency of requiring every bank to report to the Secretary of State weekly a complete statement of its affairs. The order also requires that the Secretary publish in newspapers monthly abstracts of the returns; and that each bank shall constantly have in specie twelve per cent. of its capital, and stop discounting when the specie on hand falls below that amount.

The receipts of the Long Island Railroad, for the fiscal year ending March 31 were \$217,364 23; and for the previous fiscal year \$192,443 64, showing an increase of \$34,922 59. The receipts for the last four fiscal years ending the 31st of March, have been

copper stocks, says:

The recent declaration of a \$30 dividend by the Minnesota, that cost but \$22 per share, and the certainty that another dividend of from \$30 to \$50 will be earned by January next, have tended to excite the minds of all who are interested in mining enterprises. But we deprecate all ignorant speculation, and think it would be better for the whole copper interest, if not a share were publicly bought and sold until the first payment of dividends. Especially do we hope that the public will not be induced to join in any "bogus" companies, got up to enable the, projectors to put money in their purse, rather than to pluck out metal from the bowels of the land. Copper Falls is now scarce and firm at 50 to 51. Toltec is the present speculative card. Both are under able direction, and while the great success of the former is beyond a doubt, that of the latter is so near a certainty as to put it in the first rank of non-dividend certainty as to put it in the first rank of non-dividend mines. Winthrop and Dana are also active. The latter is more developed, but the former is thought to have the famous "hill vein" of the Copper Falls running through its territory. The holders of "Adventure" will be pleased to learn that the prospects of that mine are now favorable. The Toltec vein is said to cover one end of the property, while the resent letters state that the present diggings have reached an abundance of metal.

From the above statement it will be perceived that the Baltimore and Ohio Railroad is already a powerful rival for the western freighting business, and with the aid of the daily line of steamers of the Parker Vein Coal Company, in the transportation of freight to and from this city and Baltimore, in connection with the railroad, it will form the quickest and cheapest route for freight between this city and Cincinnati.

A corps of surveyors has been organized at Newburg, and another at Syracuse, for the purpose of surveying a railroad route between those cities, and they are now progressing towards the centre of the line. The line will be less than 170 miles long, reducing the distance from Syracuse to New York city full fifty, and perhaps sixty miles. The grades, so far as can be now seen, will present no impediment to easy and speedy travel either way, and the isolated country it is to traverse, and the tunnel-like centre at hich it starts towards the great market of the untry, all combine to characterize it as the greatest

The annexed statement exhibits the expenditure and revenue of the province of Canada, for the year

on the 31st of January, 1852, amounted to £407,400. This shows a slight falling off in the net revenue of

the year just closed. The commissioners appointed by the Legislature of Louisiana to examine into the condition of the banks of New Orleans make the annexed report of the three institutions in the process of liquidation :-

banks of New Orleans make the annexed report of the three institutions in the process of liquidation:—

CITIZENS' BANK.

The examination of the affairs of the Citizens' Bank shows that the institution has no circulation or deposits, and no liabilities except for the State bonds and bank bonds held abroad. The committees had only to look inte the security which the State has in the assets of the institution, and the mortgage securities given to the bank by its stockhoiders for the punctual payment of the State obligations as they become due. Such an examination as the committees were able to make, consulting the local knowledge of the different members of the committees as to the value of the mortgages upon property in their respective localities, induces the belief that the security is ample for the protection of the State. The mortgages remain binding for their original amount, although sixteen instalments of one dollar on each share have been called in and paid with remarkable punctuality. The back has considerable assets, and is collecting from the stockholders the contributions authorized under the act of 1847. These will for a number of years produce a considerable surplus of receipts over payments. The State is, in the judgment of the committee, well protected against loss for her liabilities for this bank, if her interests are prudently guarded hereafter.

The Consolidated Association.

The same general remarks apply to this bank—it has no circulation or movement. The State's interest lies in superintending the liquidation, in order to protect itself against loss, on account of bonds issued for the use of the bank. The winding up of the bank will show a heavy loss to the stockholders. The apparent deficiency is now about \$200,000, which will doubless be considerably increased on the closing of unsettled accounts; but the mortgages which the bank holds, and its good assets, afford in the present aspect of affairs an apparent abundant security against loss to the State on account of the bank.

alteration to notice in rates for California or Australia. HAY was very quiet, at \$235c. a \$73c. per 100 lbs. Hors.—There were 28 bales sold to day, at 20c. a 22c. per lb.

Inch.—Scotch pig retailed at \$33 a \$39 per ton, and was in demand for future delivery, at \$32 a \$33 per ton. Inch.—The inquiry for Rockland was less active, at \$1 12½ for common, and \$1 50 for lump, per bbl.

Molassis.—No change occurred in this line. Sales have been made of 250 hbds. (a deck load) Mascovado at 22c. a 25c; and 80 hhds. Cardenas at 20c. a 21c. per gallon.

Natal. Stores.—We heard of no important transactions, while prices remained as last represented.

Olla.—Nothing additional was done in whale, sperm, or olive. There were 5,000 gallons linseed taken at old prices. Provisions.—Fork still tended upward. The sales included 1,000 bbls. at \$13 25 for rump; \$13 50 for prime; \$15 50 for meas, and \$16 75 for thin do. per bbl. No alteration occurred in cut meats. Lard was in better demand; sales were made of 1,000 bbls. very ordinary to prime, at \$4%c. a \$4%c. and 700 kegs, at 10%c. per pound. Beef was a little more active. The sales amounted to 300 bbls., at \$45 0 a \$5 for country prime; \$5 87½ a \$6 50 for city do; \$8 25 a \$10 25 for country do., and \$12 a \$13 for city do, per bbl. Beef hams, butter, and cheese, continued as last noticed.
